

NATURE EXPLORERS

Nature-based Skills

Explore

Woodland Wanderers

A fun nature trail to navigate around the woods, collecting woodland items along the way before combining them with your creativity to create a wonderful woodland mascot.

Nightline

Fancy being an Arctic explorer? Put your trust in your partner as they guide you around the obstacle course... blindfolded!

Environmental Awareness

Plants

Forest Foraging*

Discover the practical uses of our woodland plants as you wander through the woodland. Learn how to identify common species before turning them into tinctures and teas.

Terrific Trees

Learn how to identify our woodland trees, discover their unique uses and hear the myths and legends surrounding each species.

Tree Detectives

Become a tree detective and learn how to identify trees that make up the British woodland. Then race against your friends to search for the trees and solve the riddle.

Creatures

Minibeast Madness

Collect and identify our tiniest woodland inhabitants, working together to find the most interesting bugs to win the fun game of Bug Trumps! Then, combine natural materials gathered from the woodland with your imagination to build a fun and exciting home for your chosen minibeast friend.

Tracking and Signs

Learn to look out for the signs of our feathered & furred woodland inhabitants before making a trail of your own.

Groups will pick one activity from each category.

*Due to the advanced nature of this activity, it is only available for groups in Year 6 (age 10) or above. Available from September 2026.
