

# WILD SURVIVORS

Confidence and Independence

Environmental Awareness

## Basics of Bushcraft

### Fire Lighting - Keep the Spark Alive!

Explore the uses of fire, the science behind heat production and the principles of the fire triangle, before learning how to safely use a fire-steel and perfect the art of marshmallow roasting!

### Shelter Building for Survival

Work together to build the ultimate woodland shelter by combining materials found within the woodland with newfound knot skills.

## Nature Knowledge

### Camouflage and Concealment

Discover how to blend into your surroundings by combining the traditional and military techniques of camouflage and concealment.

### Tracking and Signs

Learn to look out for the signs of our feathered & furred woodland inhabitants before making a trail of your own.

### Cordage and Trapping

Learn why cordage is so important for surviving in the wild and how it can be used to make humane traps for helping injured wildlife or gathering food.

## Survivor Skills\*

### Campfire Cooking\*\*

Work together to build the ultimate campfire before cooking your own tasty campfire treat.

### Knife Skills

Develop independence and confidence through knife skills as you learn to carve your very own tent pegs.

### Forest Foraging\*\*

Discover the practical uses of our woodland plants as you wander through the woodland. Learn how to identify common species before turning them into tinctures and teas.

Groups will pick one activity from each category.

\*Due to the advanced nature of these activities, they are only available for groups in Year 6 (age 10) or above. Younger groups will be asked to pick an additional activity from category 1 or 2. \*\*from September 2026
